

Cuyahoga County Police Chiefs Association 2011 Membership Roster

INTRODUCTION

This year we have undertaken a minor change in the roster document in order to minimize the ever-increasing size of the document without degrading the available information. In prior years we have provided member information in twelve distinct formats. This year that same information will be provided in only two formats:

- All members by name
- All members by department/organization

We will continue to use exclusive e-mail distribution so that we can provide extensive information at almost no cost. The complete Membership Roster is also available on our website.

All of the files contained in this Roster are .pdf files and can be downloaded in total or selectively onto your computer for quick access. Selected files can be printed if you desire to have a printed copy of a particular file on hand.

Near the end of the roster document is an information update form. Please print and submit this form anytime any of your contact information changes, especially your e-mail address, so that the roster can be kept current and you continue to receive your monthly Chiefly Chatter newsletter.

The last page of the roster is a Membership Application that can be printed and given to prospective members.

Although we cannot include the CCPCA website in this document it is an important source of current Association information. Please take the time to look it over and utilize it regularly. The website URL is www.ccpcachio.com.
